

Leo Demoissac
5015-49Ave
St Paul, Alberta

Dear Mr Demoissac:

As per our conversation this previous fall; here are some preliminary details for you to take to your next council meeting. We are asking permission from the county to host the following event:

The Friends of Lac Bellevue Enhancement Society is interested in hosting our first annual Bellevue Blast on July 18, 2015. This will be an obstacle race that is over a course of 6KM, with a shorter course for participants aged 10 - 14 - possibly 2KM with obstacles as well.

A tentative plan is to have the race start at the public site boat launch, this would be where the registration and pump up party would be. The race / obstacles would be on the quad / snowmobile trail and not in any ditches along the roadway; signage would be provided alerting motorists of a "race in progress". The race would end on Legion Lake Front grounds at the beach where we would be selling hamburgers / hot dogs / beer / pop / etc as well as having a live band and DJ style entertainment.

Parking for the event would be at the county dumpsters along the highway and have horse drawn wagons to the boat launch, thus eliminating traffic in and out of the lake area.

The entry fee will include a t-shirt and a free beverage ticket.

The proceeds of the event will be going towards a new building (dorm style) to house various service groups in and around the area, including Girl Guides, Air Cadets, Scouts, etc. The inclusion of participation from these types of groups is laid out by the mandate of the Legion Lake Front Association, in order to comply with the current lease agreement that is in place.

This race will be open to ONLY 500 people, with waves of 100 going every 15 min starting at 10:00 am. (subject to change per recommendation of race set up company). Race registration will be in advance and payment will be on-line, with check in starting an hour before your wave time.

We will be requesting an ambulance to be present on site along with qualified personnel.

Please feel free to contact me on my cell phone at 780-603-8564 or through email at jamison@telusplanet.net

Thank you in advance
Sheryl Jamison
