Dear Sir,

We would like you to be aware of the wonderful work Steven Jeffery and his plowing crew have done for us this winter.

We live on the south side of Laurier Lake at Ernie's Beach on First Street. Our home is considerably lower than Laurier Avenue [TWP 563]. First Street drops towards the lake as does our driveway; neither area gets any sun during the darkest months of the winter.

In late December 2014, the road to our home was in such poor condition our 'pump-out' truck could not get into our yard. We worked hard at getting the driveway cleared and chipped of ice and a phone call to Stephen brought out the sanding truck and plow to work on First Street. With the plow crew's work we got the pump-out truck into and out of our yard.

Again, in late January (with the rains), we had awful conditions. A phone call to Steven Jeffery brought out the crew. Steven drove out to check (he told my neighbour that our roads were the worst in the county). The next day the crew brought two trucks, a big one to work on the main roads and a small one to work on the 'T' roads that go towards the lake. What a wonderful difference that work-crew made to our access and safety.

We have been made aware of our eligibility for the County's Seniors Yellow Flag Program; we will be applying for that service.

Please recognize Steven Jeffery for his excellent service as a County employee.
