County of St. Paul No. 19

We live on the correction line – Township Road 590. Our address is 10103 TWP RD 590.

This is a high traffic road which divides our farm – our residence and machine shop on the south side and cattle and machinery on the north side. It was not our decision to put the road in through our farm. The traffic has been steadily increasing and most travel at an extremely fast speed. There are yellow signs posted of a suggested speed of 60 km/hour for the curve on which we live. Our daughter Lisa, who suffers from cerebral palsy, and myself, who is hard of hearing and slow in walking, cross this road several times a day. We are extremely concerned at this danger, especially that those speeding so fast coming from the west would not be able to stop if needed.

For safety reasons, we respectfully request a change to correct this. We would like to suggest a change to white signs with a reduced speed limit that is enforceable by the RCMP and a crossing sign to alert drivers that people and farm machinery frequently cross there.

Thank you in advance for considering and acting on these valid concerns to correct this danger to both the public and our family.

Sincerely,

Harry Zellweger
