

November 4, 2016

To the County of St. Paul,

We would like to start this letter by thanking you for all that you have helped us achieve to improve our community. We understand that you have put in place a policy to help communities further by providing 25% of funds needed to match grants that have been applied for and approved by government. This is the reason for our letter/request.

This spring we became aware that we had a problem that needed to be addressed so we applied for a grant to help us complete this project. The project that needed to be done was an overhaul on our plant in the local arena. It was indicated to us, by the maintenance company Cimco, that there was a good chance that we would have some major problems soon if this overhaul was not done.

We are very happy to inform you that we have applied for and received a grant under the Agricultural Initiatives Program. This is a matching grant program. Our total project is estimated at \$16,143.75 and were approved for \$8071.87.

We have also included a copy of all paper work that we received from the government which provides a breakdown of all expenses needed to complete this project. Thank you for considering helping us with our portion of this matching grant.

Sincerely

Amanda Amyotte

President of Mallaig Ag. Society and Rec. Assoc.
