Sir/Madam,

We, Tim Hansen and Linda Hansen of Beaumont, Alberta hereby  
authorize Todd and / or Dana Mishio of Edmonton, Alberta to act on our  
behalf in requesting your consideration to approve the creation of a path  
on environmental reserve located adjacent the above noted property.

Thank you for your cooperation.

Yours sincerely,

Tim Hansen -owner

Sir/Madam,

We are writing to ask for your consideration in our application to create a pathway from the land as noted above through the environmental reserve (ER) land to the lake. Previous to new bylaw changes, owners of the lots in the subdivision of the above noted property were able to build a road on environmental reserve land 18 feet wide from the lot to the lake. This particular property is at quite a high elevation; approximately 30+ feet above the level of ground at the shore line of Lac Santé. We are interested in creating a switchback path from the top of the property to the bottom of the hill for access to the lake. Our proposed idea of a switchback path will limit the direct run-off of water to the lake from the property above as well as allow for safe access down the decline. This is one of the last properties to have an access path made to the lake, with the neighboring properties having a staircase through ER and others with 18' wide paths. We would like to ask for the same allowance that the previous bylaws allowed our neighbours for lake access through environmental reserve land. We are humbly requesting to be granted the ability to create a switchback path on the ER from the top of the hill at the ER line to property line to the bottom of the hill that will be wide enough that we may safely walk, tow a cart with sand / water toys for the kids and that we be granted permission to use equipment on the ER to make the path.

Thank you in advance for your consideration,

Todd & Dana Mishio
