

Request for Decision

Council Meeting: May 14, 2019

8.11 - GBC/Chip Seal Tender

Request

Tenders were opened on May 3 for the 2019 Road Resurfacing Program which included:

- resurfacing approximately 47 km of existing two-lane cold mix surfaced roadway including; scarifying and pulverizing existing surface, grading to specified tolerances, subgrade preparation, placement and compaction of 200 mm granular base course, and prime coat of finished surface.
- Approximately 18.5 km of double graded chip seal application.

The results of the tender opening will be presented at the Council meeting.

Alternatives

Recommendation

Based on the tender results, administration will be looking for direction from Council on how to proceed.
