Council
County of St. Paul Number 19
5015 – 49th Avenue
St. Paul, Alberta
T0A 3A4

Dear Council:

BUSH BUGGY FIRE FIGHTING UNIT

The Elk Point Volunteer Fire Department is presently fund raising for the possibility of acquiring a completely integral firefighting unit mounted on an ATV mobile capable of fighting fire in remote and difficult areas whether open terrain or bush laden terrain where we presently are not capable of accessing with our Rapid Attack unit. This unit will consist of a pressure washer type unit with a 90 gallon tank capable of spraying water and also utilizing a foam agent to be more effective than just water.

The cost of this unit is presently determined to be in the neighborhood of \$25,000.00 as the design is dependent on the amount of funds we presently have and are able to solicit to fund this project. This unit is of the same design that the Ashmont Fire Department presently has in service.

In reviewing the Ashmont Fire Department's expenditure for their unit we have noticed that the Council assisted them in providing miscellaneous materials and labor for the construction of the skid mounted unit for the ATV Unit and a trailer to transport this unit.

Trusting we will receive favorable attention and consideration in our quest to better service our designated area and continue to have a safe place for all to work and play.

Should you require any further clarification or information on our solicitation, please do not hesitate to contact me.

Yours truly,

A handwritten signature in black ink, appearing to read "Ken Palamarek", written over a horizontal line.

Ken Palamarek

Fire Chief
