

## A Forum for Alberta Municipal and Community Leaders

For the first time, the Municipal Climate Change Action Centre is hosting a gathering for climate change practitioners wanting to accelerate action on climate change in Alberta communities.

This will also be the first step toward creating a network of practitioners in a province-wide community of practice to provide mutual support, learning and professional development.

Best of all, registration is FREE and breakfast and lunch will be provided. All you need to do is get here!

The workshop will be highly interactive and engage participants in creative learning and idea sharing. Be a part of the inaugural Community Action on Climate Change workshop, it is sure to be an exciting event!

This is a unique opportunity to tell your story, share the lessons you have learned, and connect with other practitioners tackling the same issues.
